

PM-634 ALGIKLEAN

ALGAECIDE

PM-634 ALGIKLEAN is a double action product: algaecide and brightener. It can be used as a maintenance algaecide and it is also suitable for shock treatments. It is specially designed for pools treated with salt electrolysis because it doesn't contain metal ions which can damage the cell of the equipment. It does not create foam.

METHOD OF USE AND DOSAGE:

- Before its use, analyse the level of phosphates with Insta-Test ProPhosphate.
- If the concentration of phosphates is greater than 200 ppb, apply PM-625 Phos-out.
- Directly add to the swimming pool water with the filter in operation.
- **Initial and shock treatment (green water):** 2 L/100 m³ of water.
- **Maintenance treatment:** 1 L/100 m³ every month.

PHYSICAL PROPERTIES:

- Appearance: Pale blue liquid
- Odour: Slightly characteristic
- Density: 1.065 – 1.090 g/cm³
- pH: 6.5 – 8.0
- Solubility in water: Miscible in water in all proportions

HAZARDS AND PRECAUTIONARY STATEMENTS:

- Harmful if swallowed.
- Very toxic to aquatic life with long lasting effects. Avoid release to the environment.
- Keep out of reach of children.
- Do not get in eyes, on skin, or on clothing.
- Wear protective clothing and eye protection.
- If exposed or if you feel unwell: Immediately call a poison center or doctor/physician. If medical advice is needed, have product container or label at hand.
- Dispose of contents/container in accordance with applicable regulations.

PACKAGING:

1, 5 and 20 L bottles
